PROFESSIONAL EXPERIENCE

KEY SKILLS

LANGUAGES: Typescript, JavaScript, C#, HTML, CSS;

FRAMEWORKS/LIBRARIES: .Net Core, Angular, Bootstrap, React, Redux, REST;

CERTIFICATIONS: AWS Certified Cloud Practitioner, Azure Fundamentals;

SOFTWARE/TOOLS: GIT, PostMan, Confluence, JIRA, Docker, Azure DevOps, Asana;

METHODOLOGIES: Agile, Scrum, Kanban, continuous integration/continuous delivery (CI/CD), Pair programming, test driven development (TDD);

EMPLOYER HISTORY

10/2021 - To Date

Liquid Devs, Lufkin, TX

Software Developer

Assignments:

- **07/2023 – To Date** React-Redux, .Net, Cosmos Db WebApp Project: Worked remotely with team members to implement and maintain new React-Redux features and .Net API services.

Environment: React, Redux, .Net Core, Cosmos Db, NoSQL, Azure, REST, GIT, DevOps, Asana.

- **10/2021 – 07/2023** Liquid Devs Angular-Typescript, .Net, Oracle SQL WebApp Project: Worked remotely with team members to implement and maintain new Angular Typescript features and .Net API services. Modified existing database to support new features.

Environment: Angular, .Net Core, Oracle, SQL, AWS, REST, GIT, GitLab, JIRA, Confluence.

08/2019 - 10/2021

CGI Federal, Lafayette, LA

Application Development Specialist

Assignments:

- **01/2021 - 10/2021** CGI Federal Angular TypeScript Mobile WebApp Project: Worked remotely with team members to convert ReactJS Redux WebApp and add new functionality to Angular TypeScript WebApp. Took part in breakout and design meetings. Help ensure conversion was designed to spec of company's DPL (Design Pattern Library). Participated in Scrum, Agile, and Kanban ceremonies.

Environment: Angular, ag-Grid, ng-Bootstrap, Oracle Java, SQL, REST, GIT, Bitbucket, JIRA, Confluence

- **03/2020 - 01/2021** ReactJS Mobile WebApp Project: Worked remotely with team members to add new functionality to React Redux app. Implemented new Oracle Java backend services via REST API. Worked with security team to fix code vulnerabilities. Fixed reported REACT bugs; Participated in Scrum, Agile, and Kanban ceremonies.

Environment: React, Redux, Oracle Java, SQL, REST, GIT, Bitbucket, JIRA, Confluence

- **08/2019 – 03/2020** Cloud Hybrid Orchestration Platform: Worked with remote and local team members to create JAVA Unit Test, Angular Karma Test, add new functionality to existing JAVA and Angular code, and fixed reported JAVA and Angular bugs; Also used Clair Vulnerability Static Analysis tool in Jenkins to find security issues and update docker images based on findings. Helped implement automation through bash scripting. Participated in Scrum, Agile, and Kanban ceremonies.

Environment: Docker, Angular, Karma, Java, Junit, Mockito, REST, Bash Scripting, Spring Boot, JSON, GIT, Bitbucket, JIRA, Confluence

02/2019 - 08/2019

IBM CIC BR, Baton Rouge, LA

Application Development Specialist

Assignments:

- **04/2019 - 04/2019** Full Stack Proof of Concept Project: Created a web application that allowed users to login, edit existing data, and add new data. Used Spring-boot and Hibernate in the backend to communicate with a provided MySQL database. Front-end was built with Angular.

Environment: Java, Spring Boot, MySQL, Postman, JSON, GIT, Hibernate, Angular, JavaScript, Typescript, HTML, CSS, NodeJS, Bootstrap.

COURSES AND TRAINING

TRAINING:

Garage Bootcamp - IBM
Developing on AWS - Cognixia
Agile training - IBM
Node.js - LearnQuest
Angular - Pluralsight
React - Pluralsight
Angular/Typescript - No Fluff Just Stuff

BADGES:

IBM Cloud Garage Method Developer Bootcamp
IBM Cloud Innovate method Explorer
IBM Agile Explorer
Enterprise Design Thinking Practitioner
Interskill - Blockchain Foundations
Big Data Foundations - Level 1
Data Science Foundations - Level 1
Watson and Cloud Foundations
Cognitive Practitioner
IBM Blockchain Essentials

Education

Bachelor of Science in Computer Information Systems

Northwestern State University of Louisiana, Natchitoches LA

Other Information and Skills

Operating Systems: Advanced: Windows XP, 7, 8, 10, OSX, Linux Fedora, Ubuntu, Manjaro;
Intermediate: PoP!_Os, VMware, pfSense, TrueNAS, Proxmox;

Software: Advanced: Portainer, Word, Excel, PowerPoint;

Business Knowledge: Communication, Management, Cyber Business Law
